

Shoulder Pain Relieved

Sunday, 15 April 2012 22:06

Dr. Tripp,

I just wanted to let you know how much I appreciated everything you've done for my shoulder pain. I have been to chiros in the past but not with these results in this short of time. In 4 sessions with you, I was amazed how much relief and lack of pain I had. I would definitely recommend you.

Once again- Thank you so much, Gloria (received in a Thank You Note)
